

Use the 10mm main shaft shim if you have vertical movement in the main shaft after assembly. This is completely normal and within tolerances.

109-110 10mm Main Shaft Shim (Optional)

100-261 M2.5x10 Socket H

100-351 M3 Nylock Nut

100-320A M3x20 Special Bolt

100-325A M3x25 Special Bolt

320-411 Jesus Bolt Collar

DO NOT OVER TIGHTEN SPECIAL BOLTS!!!

[Over tightening will create unwanted stress on these bolts]
